

6th Grade Challenge Science

East Middle School

Mr. Griffith

Welcome to 6th grade challenge science at East middle School! Throughout the year we will be exploring a variety of science topics. These topics are in correlation with the general seventh grade curriculum and range from basic geology and the formation of fossils to genetics and the human body. Students should also expect a more rigorous pace than the general curriculum for sixth grade science. The class will include experiments, projects, discussions and homework. Please come to class ready to work, learn, and have fun!

6th Grade Science Learning Targets

Students will be able to...

- Demonstrate their knowledge of 6th grade science topics as laid out by the State of Colorado,
- Solve problems using scientific thinking, and
- Understand how science contributes to society in constructive ways.

Classroom Requirements

Supplies

- **Composition notebook:** Students are required to keep a notebook that will record much of the work we do each day.
- **Planner:** Students are given an orange planner at the beginning of the year. The planner is required to be with the student each day during science class.
- **Folder:** Loose papers that must travel between home and school should be kept in the folder.
- **Writing utensil:** Please be sure to have a pen or pencil each day.

Rules

- If you have a problem, feel free to solve it in any way that will not cause a problem for ANYONE else in the world!

Other items

- Please have a reading book with you each day to read as students enter before class starts.
